

Ctrl + F8

Get a picture of what's going on behind the scenes in NAV

Do you ever want to get a better picture of what is really going on behind the scenes in Microsoft Dynamics NAV? By pressing Ctrl+F8 on any screen in NAV, you can get a list of all the fields in a record and their current values. This is especially helpful for diagnosing problems with posting groups, tax settings and other information that is not normally shown. This information can also be copied into Excel for further viewing and analysis.

The screenshot displays the Microsoft Dynamics NAV interface. The main window is titled '2006 The Cannon Group PLC - Sales Order'. It has several tabs: 'General', 'Invoicing', 'Shipping', 'Foreign Trade', and 'E - Commer...'. The 'General' tab is active, showing fields for 'No.' (2006), 'Sell-to Customer No.' (10000), 'Sell-to Contact No.' (CT000001), 'Sell-to Customer Name' (The Cannon Group PLC), 'Sell-to Address' (192 Market Square), 'Sell-to City' (Atlanta), 'Sell-to State / ZIP Code' (GA 31), and 'Sell-to Contact' (Mr. Andy Teal). Below these fields is a table with columns: 'T..', 'No.', 'Description', 'Location ...', 'Quantity', 'Reserve...', 'Unit of M...', and 'Unit Pric...'. The first row contains: 'I...', 'LS-MAN-10', 'Manual for Loudspeakers', 'WHITE', '10', and 'PCS'. To the right of the table is an 'Item Information' panel with links for 'Item Card', 'Availability (75)', 'Substitutions (0)', 'Sales Prices (0)', and 'Sales Line Di... (0)'. A 'Sales Line - Zoom' window is overlaid on top, showing a list of fields and their values:

Field	Value
Purch. Order Line No.	0
